BSc Computing (Software Engineering)

University Of Northampton

November 2019 – June 2022(Expected)

High School (PCM)

Gandaki Boarding High School

May 2016 – June 2018

3.13/4.0 CGPA

SAT: 1380 | M:790 V:590 TOEFL: 104/120

CERTIFICATES

React – The complete guide (Udemy)

Android Java Masterclass (Udemy)

Algorithms, Part 1, 2 (Coursera)

OBJECTIVE

Enthusiastic programmer with experience in web and mobile technologies seeking to hone my development and collaboration skills through a position at your company.

EXPERIENCE

WEB GAMES PORTAL

Full-stack developer

September 2020 - November 2020

- Designed and programmed a full-stack web application using React and Firebase for the successful mobile app company Web Games Portal.

PROJECTS

REACT-CHAT

- Built a real-time chat app powered by React, NodeJS, MongoDB and Socket.IO.
- Deployed the app in Heroku and GitHub pages.

COURSE-MANAGEMENT

- Programmed a full-fledged university portal in collaboration with a web designer friend.
- Built the system using React, NodeJS and MySQL.

KEYSTROKE

- Built and deployed a touch-typing practice website using vanilla JavaScript.
- Added features like stats tracking, custom text, difficulty adjustment and so on.

ACHIEVEMENTS

HIGH SCHOOL COMPUTER FAIR (Winner)

July 2017

- Modeled my entire high school inside Unity3D and built an FPS zombie game based around the location.

BRACKEYS GAME JAM (Participant)

May 2020

- Created a platformer game for mobile devices with character design and animation done from scratch.
